CONTENTS OF VOLUME 431

December 1990

ANDERSON Debra F., BORST Nicolaas J.P., BOYD Robert D.H. & FABER J. Job Filtration of water from mother to conceptus via paths independent of fetal placental circulation in sheep. 1

FLATMAN Peter W. & SMITH Lorraine M. Magnesium transport in ferret red cells. 11

FRANCIS L.P., CAMELLO P.J., SINGH J., SALIDO G.M. & MADRID J.A. Effects of phorbol ester on cholecystokinin octapeptide-evoked exocrine pancreatic secretion in the rat. 27

OKAMURA Y. & SHIDARA M. Changes in sodium channels during neural differentiation in the isolated blastomere of the ascidian embryo. 39

OKAMURA Y. & SHIDARA M. Inactivation kinetics of the sodium channel in the egg and the isolated, neurally differentiated blastomere of the ascidian. 75

YANG Xian-Cheng & SACHS Frederick Characterization of stretch-activated ion channels in *Xenopus* oocytes. 103

KONISHI Tetsuro Voltage-gated potassium currents in myelinating Schwann cells in the mouse. 123

LOMBARDI Vincenzo & PIAZZESI Gabriella The contractile response during steady lengthening of stimulated frog muscle fibres. 141

ROME Lawrence C., SOSNICKI Andrzej A. & GOBLE Dallas O. Maximum velocity of shortening of three fibre types from horse soleus muscle: implications for scaling with body size. 173

KAWA Kazuyoshi Voltage-gated calcium and potassium currents in megakaryocytes dissociated from guinea-pig bone marrow. 187

KAWA Kazuyoshi Guinea-pig megakaryocytes can respond to external ADP by activating Ca^{2+}-dependent potassium conductance. 207

HONDA K., NEGORO H., DYBALL R.E.J., HIGUCHI T. & TAKANO S. The osmoreceptor complex in the rat: evidence for interactions between the supraoptic and other diencephalic nuclei. 243

YAMASHITA Naohide & HAGIWARA Susumu Membrane depolarization and intracellular Ca^{2+} increase caused by high external Ca^{2+} in a rat calcitonin-secreting cell line. 243

OWEN David G., MARSH Stephen J. & BROWN David A. M-current noise and putative M-channels in cultured rat sympathetic ganglion cells. 269

MCCORMICK David A. & PAPE Hans-Christian Properties of a hyperpolarization-activated cation current and its role in rhythmic oscillation in thalamic relay neurones. 291

MCCORMICK David A. & PAPE Hans-Christian Noradrenergic and serotonergic modulation of a hyperpolarization-activated cation current in thalamic relay neurones. 319

AUGUSTINE George J. Regulation of transmitter release at the squid giant synapse by presynaptic delayed rectifier potassium current. 343

SCHIEPPATI Marco, ROMANÒ Carlo & GRITTI Ivana Convergence of Ia fibres from synergistic and antagonistic muscles onto interneurones inhibitory to soleus in humans. 365

SCHNITTLER Hans-J., WILKE Axel, GRESS Thomas, SUTTORP Norbert & DRENCKHAHN Detlev Role of actin and myosin in the control of paracellular permeability in pig, rat and human vascular endothelium. 379

MORLEY J.W. & ROWE M.J. Perceived pitch of vibrotactile stimuli: effects of vibration amplitude, and implications for vibration frequency coding. 403

TOBIN G., EKSTRÖM J. & EDWARDS A.V. Submandibular responses to stimulation of the parasympathetic innervation in bursts in the anaesthetized ferret. 417

SCHOUTEN Vincent J.A. Interval dependence of force and twitch duration in rat heart explained by Ca^{2+} pump inactivation in sarcoplasmic reticulum. 427

BASSNETT Steven Intracellular pH regulation in the embryonic chicken lens epithelium. 445

HOYLE C.H.V., KAMM M.A., BURNSTOCK G. & LENNARD-JONES J.E. Enkephalins modulate inhibitory neuromuscular transmission in circular muscle of human colon via δ-opioid receptors. 465

LUNG Mary A. Variations in blood flow on mandibular glandular secretion to autonomic nervous stimulations in anaesthetized dogs. 479

REVINGTON Maureen, POTTER Erica K. & MCCLOSKEY D.I. Prolonged inhibition of cardiac vagal action following sympathetic stimulation and galanin in anaesthetized cats. 495

BAIN M.D., COPAS D.K., TAYLOR A., LANDON M.J. & STACEY T.E. Permeability of the human placenta *in vivo* to four non-metabolized hydrophilic molecules. 505

KEHL S.J. 4-Aminopyridine causes a voltage-dependent block of the transient outward K^+ current in rat melanotrophs. 515

HALL Judith M. & MORTON Ian K.M. Mechanism of action of substance P in guinea-pig ileum longitudinal smooth muscle: a re-evaluation. 529

WHITAKER E.M., HUSSAIN S.H., HERVEY G.R., TOBIN G. & RAYFIELD K.M. Is increased metabolism in rats in the cold mediated by the thyroid? 543

CASADO J., FERNÁNDEZ-LÓPEZ J.A., ESTEVE M., RAFECAS I., ARGILÉS J.M. & ALEMANY M. Rat splanchnic net oxygen consumption, energy implications. 557

STEWARD M.C., SEO Y., RAWLINGS J.M. & CASE R.M. Water permeability of acinar cell membranes in the isolated perfused rabbit mandibular salivary gland. 571

SURPRENANT Annmarie, SHEN K.-Z., NORTH R.A. & TATSUMI H. Inhibition of calcium currents by noradrenaline, somatostatin and opioids in guinea-pig submucosal neurones. 585

SHEN K.-Z. & SURPRENANT Annmarie Mechanisms underlying presynaptic inhibition through α_2-adrenoceptors in guinea-pig submucosal neurones. 609

KUO Han-Pin, ROHDE Juliette A.L., TOKUYAMA Kenichi, BARNES Peter J. & ROGERS Duncan F. Capsaicin and sensory neuropeptide stimulation of goblet cell secretion in guinea-pig trachea. 629

ROGERS D.F., ALTON E.W.F.W., AURSUDKIJ B., BOSCHETTO P., DEWAR A. & BARNES P.J. Effect of platelet activating factor on formation and composition of airway fluid in the guinea-pig trachea. 643

MILES Richard Variation in strength of inhibitory synapses in the CA3 region of guinea-pig hippocampus *in vitro*. 659

FERRELL W.R., KHOSHBATEN A. & ANGERSON W.J. Responses of bone and joint blood vessels in cats and rabbits to electrical stimulation of nerves supplying the knee. 677

BRAUN A.P., FEDIDA D., CLARK R.B. & GILES W.R. Intracellular mechanisms for α_1-adrenergic regulation of the transient outward current in rabbit atrial myocytes. 689

GASSER Robert N.A. & VAUGHAN-JONES Richard D. Mechanism of potassium efflux and action potential shortening during ischaemia in isolated mammalian cardiac muscle. 713

ROTHWELL J.C., GANDEVIA S.C. & BURKE David Activation of fusimotor neurones by motor cortical stimulation in human subjects. 743

SCHNAPF J.L., NUNN B.J., MEISTER M. & BAYLOR D.A. Erratum: *Journal of Physiology* **427** (1990) 757
